VELHALLA

THE VELAS METAVERSE

Velhalla, crypto-metaverse experience in a new way, an NFT world you can control, influence, earn, and more.

GAMING, NFTS, AND METAVERSE

The lockdowns, which were a result of the global pandemic, pushed people to look more into the potential of the online world, and they discovered that they could still do business and have fun at the same time, using their devices from anywhere in the world.

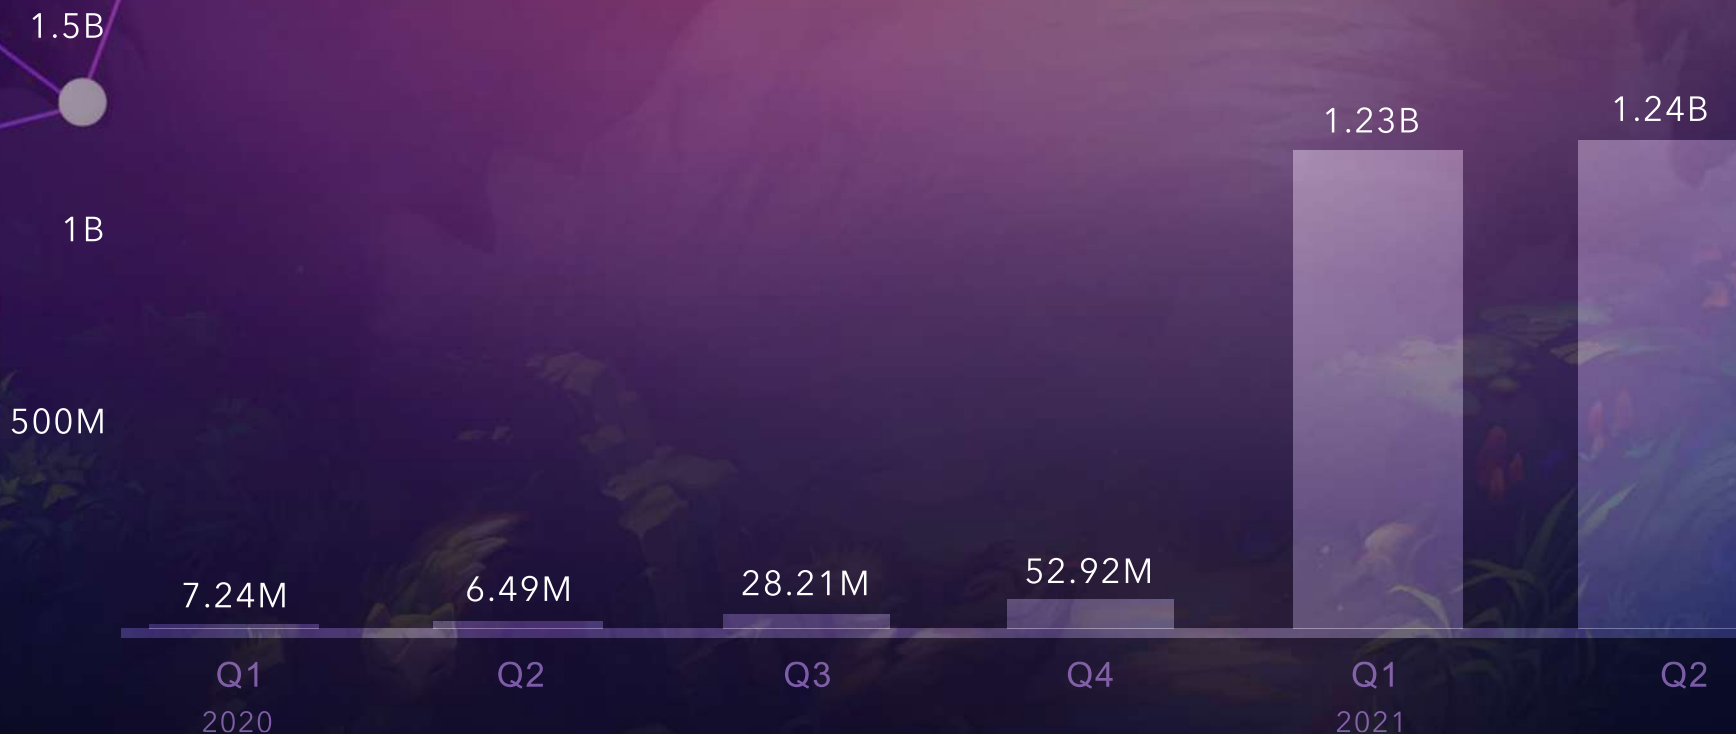

Many of the metaverses, a world beyond the universe, in existence today are powered by blockchain technology and, to transact on these virtual worlds, a user would need cryptocurrency or nonfungible tokens (NFTs). A lot of the play-to-earn games we have today have their own metaverses with native cryptocurrencies that are used both for transactions and to receive in-game assets and rewards.

NFT STATISTICS FROM 2020 – PRESENT

NFT sales volume hits record high in Q2 - DappRadar

Quarterly non-fungible sales volumes multiple blockchains, in U.S. dollars

Note: DappRadar is a company which tracks on chain NFT sales across multiple blockchains including Ethereum, Flow, Wax, and BSC

Source: DappRadar

VELHALLA – “THE FIRST METAVERSE ON VELAS CHAIN”

VELAS

+

SOLANA

Velas is the first EVM compatible chain leveraging Solana codebase that supports cross-chain transfers of all major coins

Velas is the fastest EVM chain in the world - up to 75k TPS

Velas provides instant low-cost transactions - just \$0.00001

Velas is a fast-growing chain, rapidly onboarding new projects

VELHALLA

- A Metaverse unlike any other out there on the market
- Easily bridge tokens across multiple networks
- Near-zero fees
- Extremely Fast
- Perform a wide range of actions

WHAT'S COOKING IN VELHALLA ?

A futuristic, mystical world to the ever-growing metaverse space

Virtual real estate, unique characters, digital assets, NFTs, and more

Crypto-metaverse experience in a new way

User-driven, Decentralized environment

INTRODUCING THE SCAR TOKEN

SCAR
